

Dear Members,

In August of 2011, BUCKEYE ROOFING replaced shingles on all five buildings. Nine members decided to have their skylights replaced at their own expense, eleven members decided not have skylights replaced. Recently some members are experiencing leaks from the skylights. BUCKEYE ROOFING has been contacted and will address the leaks. Since they will be on location and if any member is interested in replacing the original skylights, contact George from BUCKEYE ROOFING at 330-309-3870.

Please be reminded the original skylights are 28 years old and are the responsibility of the unit owners.

Regards,

ABVCA TRUSTEES
